BP Truck Plus Network Lighting the road ahead

Australia's most comprehensive truck network

Ultimate Dieselo

G VEHICLE

BPTruck Plus Network

We are lighting the road ahead with an extensive network of over 300 truck-friendly sites, including our very own truck stop network.

We understand the importance of clean and comfortable facilities and having all your food and fuel needs in one place, which is why we are investing in extending this network even further across Australia.

Our truck stops offer facilities such as:

- B-double access and parking
- high-flow diesel pumps
- healthy, fresh-cooked meals
- truck drivers' lounge
- showers and laundry facilities
- 24/7 operation

Bruce Jones General Manager Regional and Transport Our truck-friendly network is complemented by an additional 1200 service stations offering a comprehensive range of fuels, facilities and retail items.

"I think what differentiates the BPTruck Plus Network is our consistency of offer and our continued investment in developing new truck-friendly sites. We have been backing the road transport industry for a long time through the support of industry associations including the Australian Trucking Association and the National Road Transport Association, and organisations such as the Trans-Help Foundation. At BP we believe we are lighting the road ahead in transport."

This comprehensive guide provides every location and feature of all BP truck friendly sites in our Truck Plus Network as at 6 July 2015.
